About Our Club

Dai Ichi Bonsai Kai ("Number One" Bonsai Club) was established in January, 1986 and takes great pride in its family-oriented character. Our club is dedicated to promoting the art of bonsai. The club meets on the third Friday of each month at the Ken Nakaoka Community Center, 1670 W. 162nd St., Gardena, at 7:00 P.M.. Each meeting features a bonsai demonstration, benefit drawing and is open to the public. Our annual bonsai show is held on the first weekend in May at the Nakaoka Community Center. Other club activities include: bonsai digs, annual auction, potting parties, and outings to nurseries and private gardens.

Fred Miyahara

Mr Miyahara has become a master on many aspects of bonsai especially in the area of grafting and the Japanese black pine. He has done thousands of grafts using shimpaku scions onto San Jose junipers, and Nishiki (cork bark), Mikawa and Awaji scions onto black pine stock

Mr Miyahara has many grafted shimpakus, and hundreds of black pine which he started from seeds. Fred learned from American and Japanese masters. Some of his teachers and mentors have been Mas Ishii, Ernie Kuo, Dennis Makishima, Bill Castellon, Kathy Shaner, Boon Manakitivipart, and Kenji Miyata. He has also learned a large amount by studying books and articles, and most importantly, from experimenting on his own, the various methods and techniques. Mr Miyahara is regarded as one of the best black pine experts in southern California.

Fred is currently the vice president and curator of Japanese Friendship Garden in Balboa Park. In addition, he is a professional black pine pruner.

President's Message

by Doyle Saito

Happy New Year and welcome back everyone for another fun year of bonsai. I hope all of you enjoyed the holiday season and are healthy and doing well.

I would first like to thank the out-going president, Herb Eisenberg. Our club would not be in the healthy state that it is today without you. Thank you again for the years of work and support that you have provided our club and me over the past years.

Dai Ichi Bonsai Kai is pleased to announce that we will have Fred Miyahara as our guest demonstrator for the January meeting. Fred is a talented and highly skilled bonsai artist and will demonstrate the various aspects of grafting.

The coming months will be very busy. This weekend, Jan 14-15, will be the Winter Silhouette Show at the Los Angeles Arboretum. The formal name of this show is the Baiko-En Bonsai Kenkyukai Show, featuring deciduous trees in their dormant stage. Other upcoming shows are the California Shohin Society Seminar Feb 3-5, the Bonsai-A-Thon XV on Feb 25-26, and the California Bonsai Society : 55th Annual Convention April 11-15.

RE: 2012 National Bonsai Exhibition

As you know, Bill Valavanis will be staging the third U.S. National Bonsai Exhibition on the weekend of June 9-10, 2012. This event will take place at a new venue, The Fair and Expo Center, in Rochester, New York. I was lucky to be able to attend the last exhibit in 2010, and was very impressed by the variety and quality of the trees. However, what also struck me was the noticeable absence of trees from Southern California. (Larry Ragle was the lone entry.)

I'm as much a reason for this as anyone. In past years, I've been reluctant to participate in this exhibit, mostly due to logistical concerns over transporting trees across the country. However, after working out many of the bugs in the two prior events and also offering to provide a refrigerated truck specifically for our trees for this upcoming show, I think Bill has made it a more practical endeavor.

I know that there are many excellent trees in Southern California worthy of entry into this exhibit. There are also substantial cash prizes to be won. But, most of all, I really feel that for this to be considered a true national exhibition, it needs the support of bonsai folks from everywhere, including here. And, I'd like to help make that happen.

For this reason, I've offered to be a driver of the truck to haul trees across country to and from New York. With this letter, I'd extend an invitation to Southern California bonsaiists who'd like to enter a tree in the U.S. National Exhibition to select their trees, submit their entries and start preparing for the competition. For rules and to submit an entry, go to Bill's website at <http://www.internationalbonsai.com>, and follow the link to the "2012 US National Bonsai Exhibition" where you'll be able to learn everything about the event. Entry deadline is April 15.

In transporting these precious artworks, I will take every precaution to ensure that all trees are cared for along the way and during the return. However, the one thing I will not be able to do is to prepare, pack/crate and label your tree, along with the necessary stands, accents, etc., for your display. Each individual must be responsible for ensuring that your bonsai are pest/disease free and packed/padded/crated to protect branches, twigs and pots, while also allowing for watering. We'll arrange logistics for collecting/returning entries once they're identified.

If you have any questions about the event, your best bet is to go to Bill's website. For questions about the transport, don't hesitate to contact me, either via email at tmatson@earthlink.net, or via phone at 626-398-8412. I'm hoping for an enthusiastic response to this invitation. I hope you join me in bringing a strong California presence to the next U.S. National Bonsai Exhibition.

Thanks,
TM

The 3rd U.S. National Bonsai Exhibition will continue with the presentation of some of the finest bonsai masterpieces in the United States. They will represent the most accomplished level of bonsai in America.

Both traditional and formal alcove displays in the enlarged display room will allow the true beauty of each bonsai to come alive with the effective use of accessories. Over 100 different species and cultivars will be displayed.

The exhilarating memories you create from leaving your eyes on one of the finest bonsai exhibitions in the United States will be long lasting and can be reviewed and studied in the forthcoming Commemorative Exhibition Album. The exhibition will compare well with other traveling art museum displays in the country.

The U.S. National Bonsai Exhibitions have received excellent reviews from around the world. In the September 2009 *Kinbon* (Japan's premier bonsai magazine) a two page illustrated feature said "There is no difference in the character of Japanese and American Bonsai." The September 2011 issue had a five page, twenty-five photo article and said "This is the highest level bonsai Exhibition in America." Those are quite complimentary accolades coming from Japan.

The enthusiasm is growing for the 3rd U.S. National Bonsai Exhibition among bonsai enthusiasts and professionals alike. Sponsors and supporters from around the world are joining in the process of staging this enlarged event.

It is with pride and anticipation joy that Americans are submitting photos of their best bonsai for the selection process. Share the beauty of your finest bonsai with the world by displaying in the 3rd U.S. National Bonsai Exhibition.

Join us in Rochester, New York, to see the beauty of museum quality bonsai and to enjoy the creativity of each artist as they present their distinctive displays.

Bonsai Tips

The following tips by Jim Tatsukawa first appeared in the December 1986/January 1987 Dai Ichi Bonsai Kai Newsletter.

All bonsai will be dormant now and will only require minimal care. Some shaping and training can be done at this time but nothing too drastic. The branch and trunk structure of dormant trees are visible , so improve the tree by selective trimming. Protect semitropical trees from frost. Pines and conifers may be grafted at this time. No fertilizer is required during winter months. Do not depend on southern California rainfall to supply all the moisture required by a bonsai. Supplement the rainfall with regular watering. It is a good time to go up into the “high desert” to collect native material. Prepare soil mixture for next month’s transplanting and potting.
